

Manikanta Allena

Hyderabad, Telangana, India

Full-Stack Developer

Portfolio: https://manispark12.github.io/my_portfolio/

 **Email:** a.manikanta9810@gmail.com

 **Phone:** +91 9494861519

 **LinkedIn:** www.linkedin.com/in/manikanta-allena-0915b2266 |  **GitHub:** <https://github.com/manispark12>

Professional Summary:

Full Stack Developer with 1+ year of experience in building healthcare and web applications using React.js, Node.js, Django and REST APIs. Experienced in authentication, role-based access control, API Development, and database driven applications.

Educational Qualifications:

- B. Tech in Computer Science & Engineering Affiliated to Jawaharlal Nehru Technological University, Andhra Pradesh.**
Baba Institute of Institute of Technology and sciences | CGPA: 7.21 **Jun 2020-May 2024**
- Intermediate in M.P.C, Board of Intermediate Education Andhra Pradesh.**
Sri Chaitanya Junior College, Visakhapatnam | CGPA:8.71 **Jun 2018-March 2020**

Technical Skills:

- Programming Languages:** Java Script (ES6) ,Python, HTML5, CSS3
- Frameworks & Libraries:** React.js, Node.js, Django, Bootstrap, Pandas, NumPy, Matplotlib
- Databases:** MySQL, SQL, Mongo Db
- Tools :** Git, GitHub, PyCharm, VS Code, Postman

Professional Experience:

1)Full Stack Developer | MIRU DIGITAL SERVICES LLP

Aug 2025 – Jul-2026

Healthcare Diagnostics Management Platform:

Tech Stack: React.js, Node.js, MySQL, REST APIs

- Developed healthcare modules supporting appointment booking, patient registration and diagnostics workflows for multiple user roles, improving operational efficiency.
- Built role-based access control systems and JWT Authentication for Admin, Receptionist, Lab Technician, and Patient users.
- Designed and developed REST APIs for patient management, booking workflows, diagnostic reports, and administrative operations and testing the API's using Postman.
- Implemented notification services including OTP verification, booking confirmations, appointment reminders, and cancellation alerts.
- Implemented responsive frontend web design and backend systems while ensuring performance, responsiveness, and security.
- Participated in debugging, testing, deployment using Git and GitHub, and production issue resolution.

2)Python Developer Intern | Cogent Data Solutions LLC

Feb 2025 – Jul 2025

Tech Stack: Python, Django, MySQL

- Worked on Gradsiren job portal application operational modules and business workflows.
- Developed and maintained web scraping solutions to collect and process job related data for portal operations.
- Worked closely with senior python developers and assisted in maintaining integrated backend APIs.
- Assisted in backend development with python developers.

Projects:

1. Optimizing Flight Booking Decisions Through Machine Learning Price prediction

- Built a flight fare price prediction model using machine learning.
- Applied Data preprocessing, Feature Engineering and model training on historical flight datasets.
- Implemented Testing with 30% of the data from the datasets.

○ **Technologies used:** Python, HTML, CSS, Machine Learning | **GitHub:**

<https://github.com/manispark12/Internship-project>

2. E-Commerce Shopping Website

- This project is built by using MERN Stack , Implemented Robust user authentication by creating APIS by using thunder client and backend technologies like Node.js.
- Implemented Robust User Authentication by performing CRUD operations on APIs.

Technologies used : Html, CSS ,React.js, Node.js, mongodb.
